Tickets of admission 25 cents each. Reserved seats 50 cents each. A part of the proceeds will be given to two charitable associations, whose mission is to help the poor, viz: The Ladies Benevolent Society of Pittsburgh, and the Allegheny E. R. League. Doors open at 7 o'clock; the lecture will begin at 8 o'clock. The public is earnestly invited to attend.

Rev. John Peck, S. A. Neals, } Committee.

One of the most eloquent and thrilling lectures ever heard by an audience in this city was delivered in the Franklin street M. E. Church last evening, by Mrs. Frances Ellen Watkins Harper. We have heard Mrs. Harper compared, for power as a speaker, with Miss Dickinson; but, having heard both, we have no hesitation in giving the palm of superiority to Mrs. Harper. She combines, perhaps, equal vigor of thought and comprehensiveness of view, while she possesses more eloquence of utterance, and a more keen, penetrating and facile wit.—*Newark Courier.*

Bill Shakspeare and Cassius.

"Let me have men about me that are fat, sleek headed men—Yon Cassius has a lean and hungry look; such men are dangerous." So said Shakspeare. Now Cassius, like many another simple man, was slim because he knew not how to appreciate good living. If he were living to-day he would not be reproached because lean, for at Holtzheimer's Continental Saloon, he would repair like all sensible men do, and partake of the splendidly gotten up meals and be as sleek and fat as his tormentor. Cassius would appreciate Holtzheimer's bill of fare and would be one of the numerous patrons who throng this popular restaurant day and night. As Cassius is dead, we can only advise lean men like him to patronize no other restaurant than the Continental, next door to the Post office Fifth street, unless they want to keep lean and spare-boned.

New York, February 25, 1867.

BENEFIT OF THE EXCISE LAW.

The excise law was very generally observed throughout the Metropolitan district yesterday, and there were few arrests for any cause. Only four cases were before the police courts in the morning for keeping open bars, and one of the prisoners said that he had only the door to his private dwelling open when he was arrested.

VIOLATING THE SUNDAY LAW.

The police, last night made descents upon a Dramatic Hall, on East Houston street, and upon the Casino Concert Saloon, Broadway. In the former place several parties were taken into custody, charged with violating the Sunday law by giving a musical and dramatic entertainment. In the latter, the arrests were made on the double charge of violating the excise law as well as the Sunday law.

NO GREAT LOSS TO THE COMMUNITY.

John Day, who so dangerously shot John Daly a day or two ago, and who had hitherto eluded the police, was overtaken by them at a house on Eighty-sixth street yesterday. As soon as he recognized them by their uniform, he drew a pistol and aimed at them. The cap failed to explode, and Day immediately placed the muzzle in his mouth and fired, killing himself instantly.

As the man offered the searching officer a large bribe to say nothing about the bonds, it is believed they have been stolen, but unless information to that effect is received by the police, he will be released, as the authorities have not sufficient evidence to hold him. A considerable amount of greenbacks and some jewelry were also found on the man.

THE REFORM QUESTION.

In the House of Commons, on the 11th inst., immediately after the conclusion of the great reform meeting in Agricultural Hall, London, Mr. D'Israeli submitted the Derby Reform Plan to a very impatient assemblage of members. He said the Cabinet disliked to treat the subject as a party one, and would consequently proceed by resolution. On the 25th of February he would take the opinion of the House on a series of resolutions which would affirm what should be the character of the new bill. The extension of the franchise must be in accordance with the English Constitution, and avoid the preponderance of any class. It would be proposed that rating should be the basis for voting, and a measure would be introduced to remedy inequalities in rating. No borough would be disfranchised. A boundary commission would be issued with a view of eliminating the urban element from the constituencies in counties. Mr. D'Israeli concluded by moving that on the 25th of February, the House should go into Committee to consider the reform bill of 1832.

CONSOLIDATING THE NATIONAL DEBT.

Mr. SHERMAN introduced a bill to consolidate the national debt in six per cent. bonds, payable, principal and interest, in coin, subject to a tax not to exceed one per cent. upon the principal. He did not intend, he said, to call up this bill this session, but merely to introduce it and have it printed.

COMMERCIAL BILLS.

The Senate proceeded to the consideration of bills from the Committee on Commerce. The House bill to fix the compensation of officers of the revenue cutter service was passed.

The bill to regulate the disposition of the proceeds of fines, penalties and forfeitures incurred under the laws relative to customs, was passed and goes to the House.

The CLERK of the House announced the passage of the indemnity bill and the omnibus appropriation bill, which were referred respectively to the Judiciary and Finance Committees.

RIVER AND HARBOR BILL.

The river and harbor appropriation bill was also considered.

The Committee of Conference recommended the striking out of the following: For improving navigation in the Mississippi river at the Desmoines or Lower Rapids, one million dollars.

Mr. KIRKWOOD opposed the striking out and after debate Mr. GRIMES inquired if it would be in order to amend what was proposed to be stricken out.

The CHAIR decided affirmatively; and Mr. GRIMES offered an amendment that any canal which may be constructed around the Lower Rapids shall forever remain free to the commerce and navigation of said river and no tolls shall be collected thereon.

Mr. KIRKWOOD moved an amendment that the improvement of the Rapids shall be according to such plans as the Board of Engineers, appointed by the Secretary of War, shall approve. Adopted.

Mr. EDMUNDS moved to reduce the appropriation to $300,000. Disagreed to.

To extend the rights and remedies of the civil rights bill to the white citizens of Missouri. Referred.

Several resolutions of the Illinois, Michigan and Wisconsin Legislatures were presented and referred.

A NEW FINANCIAL PROJECT.

Mr. BROMWELL offered a resolution instructing the Committee of Ways and Means to enquire into the expediency of providing for the issue of 5 per cent. bonds to the amount of $100,000,000, payable, principal and interest, at such places in Europe as the Secretary of the Treasury may determine; to be disposed of only in exchange for 6 per cent. bonds held in Europe. The resolution was rejected.

Mr. CULLOM offered a resolution directing the Judiciary Committee to report a bill making eight hours a legal days work for Government employees. He withdrew it, on Mr. WILSON'S stating that he had already been instructed to report such a bill, but withheld it because it could not be considered by the House in its present condition of business.

ALLEGED BARGAINING WITH THE PRESIDENT.

Mr. HILL offered a preamble and resolution in reference to Mr. Wentworth's Select Committee to inquire into the alleged corrupt bargains with the President, directing such Committee to report to-morrow any evidence in its possession; and also requesting Mr. Wentworth to present the newspaper paragraph upon which his resolution was based.

Mr. STEVENS characterised the resolution as a most extraordinary one, and moved to lay it on the table.

The House refused, by a vote of 30 to 63, and the resolution was adopted.

FRANCHISE IN THE DISTRICT.

Mr. NIBLACK offered a resolution instructing the Committee on the District of Columbia to report a bill conferring the elective franchise, in the District, on all foreign born male persons, over the age of twenty-one years, who are entitled to naturalization under existing laws, and who have resided one year within the District, and have declared their intentions to become citizens.

Mr. STEVENS moved to lay the resolution on the table.

Mr. NIBLACK moved the previous question.

The House refused to second it.

Mr. FARNSWORTH rose to debate the resolution, and it went over.

LOYAL TENNESSEEANS.

Mr. TAYLOR, of Tennessee, offered a resolution for the appointment of a commission to adjudicate the claims of loyal citizens of Tennessee, for property taken by the United States forces.

The House refused to second the previous question, and Mr. WILLIAMS rising to debate, the resolution went over.

Mr. TAYLOR also offered a resolution declaring that the surviving soldiers and sailors of the war of 1812 ought to be placed on the pension rolls by this Congress.

THE WAR IN MEXICO.

Mr. CAMPBELL offered a resolution declaring that humanity, civilization and christianity, enjoined on the people and government, the duty of persistently insisting on the observance by belligerent forces in Mexico, of the principles of international law, in mitigating the horrors of war, &c.

On motion of Mr. CULLOM, the resolution was referred to the Committee on Foreign Affairs.

RESUMPTION OF SPECIE PAYMENTS.

Mr. ROLLINS asked leave to offer a resolution, declaring the cordial concurrence of the House in the views of the Secretary of the Treasury, in reference to the necessity for the contraction of currency, with a view to as early resumption of specie payment as the business of the country permits.

A torrent of objections answered the request for unanimous consent, and the resolution was not received.

REVENUE FRAUDS.

Mr. DARLING, from the Select Committee on Internal Revenue Frauds, reported, and Mr. TRIMBLE got leave to present the views of the minority. Ordered to be printed.

THE TARIFF.

Mr. MORRILL, Chairman of the Committee of Ways and Means, made a statement in reference to the business of the House, and proposed that the Committee of the Whole on the State Union, be discharged from the further consideration of the tariff bill, and the House concur in the amendment of the Senate, with amendments thereto reported by the Committee of Ways and Means and subsequently modified, in regard to the duty on books and marble, and that the subject be referred to a Conference Committee; when the report of such Conference Committee was received it would be voted down if not satisfactory. He offered a resolution to that effect.

After debate Mr. MORRILL modified his resolution, so as to let it read simply, that the rules be suspended so that the Committee of the Whole on the state of the Union be discharged from the further consideration of the tariff bill; that the House nonconcur in the Senate amendment and ask for a Committee of Conference.

After further debate the House, by a vote of 85 to 85 refused to suspend the rules.

THE TAX BILL.

The HOUSE went into Committee of the Whole on the tax bill, which was amended by striking out the tax on advertisements; allowing in cases of seizure for alleged frauds, bonds double the amount of said frauds, and permitting the business to go on; requiring inspectors of distilleries to give bonds in not less than $5,000, and providing that the assent of the United States District Attorney or Attorney General and approval of the Court, must be obtained for a compromise of any claim arising out of violations of the revenue laws; and permitting an informer to prosecute a suit in the name of the United States, notwithstanding the refusal or neglect of the collector to do so.

Several amendments were rejected, including one to reduce the tax on whiskey to one dollar per gallon, by a vote of 40 to 79.

The bill was reported to the House.

Mr. MORRILL made some remarks in review of the various amendments, in the course of which he opposed the abolition of tax on cotton. He submitted a table, showing the amount of tax collected in the rebel States in 1866 on cotton; it was $15,152,896.85, and all other sources $4,546,852.20, which latter amount was less than that paid by the small State of Rhode Island. This distributed through the ten States would hardly pay the expenses of collection.

The amendment striking leather from the free list was rejected; also, that striking out manufactures of jute.

The amendment abolishing the cotton tax was rejected by a vote of 65 against 95.

The House agreed to the amendment which requires gas companies to pay their own taxes, and to the amendment taxing all cigars, &c., $5 per thousand.

THE DIPLOMATIC BILL.

The Conference Committee on the consular and diplomatic appropriation bill made a report, which was agreed to. The proviso in regard to the Portugese mission is, that no money shall be paid to the present Minister out of any funds whatever, and that the provision shall continue in force until repealed by Congress.

MILITARY ACADEMY.

The Conference Committee on the Military Academy bill, made a report which was agreed to. The section in reference to cadets from the rebel States is that no money shall be paid for pay or subsistence of such, after the 1st of January, 1867, until the rebel States shall be restored to their original relations to the Union.

Recess.

Evening Session.—The tax bill was resumed. An amendment putting on the free list, fabric, the product of hand-looms, was adopted. The amendment striking out the line taxing brandy made of grapes was agreed to. The tax on grape brandy remains the same as other.

The action of the Committee of the Whole on distillers' licenses, was reversed, and the tax fixed at one hundred dollars.

The amendment permitting persons accused of revenue frauds to give bonds and continue their business, was rejected.

The bill passed.

NEW ORLEANS CUSTOM HOUSE.

Mr. ELIOT made a report from the Special Committee on the New Orleans Custom House.

Mr. BOYER dissented from that portion of the report in reference to sufficient care having been observed in the appointment of officers.

THE FORTIFICATION BILL.

The House, in Committee, considered the fortification bill.

The bill appropriates for coast fortification $1,000,000 generally; $50,000 each for permanent platforms for cannons of large calibre; $100,000 for the survey of the Northern and Northwestern Lakes; $155,000 for the purchase of sites for permanent sea coast defenses; $50,000 for the purchase of sites occupied by temporary coast defences; $25,000 for barracks at Willit's Point, New York; $25,000 for barracks, &c., near St. Louis.

On motion of Mr. SCHOFIELD, the appropriation for the construction of cannon platforms was struck out.

Mr. ROSS moved to strike out the enacting clause. Agreed to—61 against 48.

The Committee rose and reported the action of the House and reversed the decision, refusing to strike out the enacting clause by a vote of 57 against 69.

The bill was, under rule, re-committed.

A VOTE ON THE TARIFF.

Mr. MORRILL gave notice that he should to-morrow move to take up the tariff bill, and press its consideration till disposed of.

IRON CLAD CONTRACTORS.

The House agreed to the Senate's request for a Committee of Conference on the bill for the relief of iron clad contractors.

GEORGETOWN ELECTION.

The election took place to-day in Georgetown, for Mayor and Common Councils. The registry shows nine hundred and seventy-one negroes, and one thousand three hundred and fifty whites. At nine o'clock, the polls opened, and a rush of voters without distinction of color, commenced. The votes of several colored men were rejected, because they could not be identified, and a few on the ground of minority; this action of the judges delayed the colored voters some what, requiring them to make oath as to identity and age. Great exertion was made by each party to bring voters to the polls during the entire day. There was less of drunkenness and disorder than usual upon the streets. Chas. D. Welch, Radical, is elected by a majority of ninety-six votes over Henry Addison, present Mayor, who was the conservative, white man's candidate. A larger number of the Councilmen on the Addison ticket are elected.

INSPECTION OF OIL AND SPIRITS.

The Secretary of the Treasury has adopted a new hydrometer and the accompanying manual, containing a correction of tables, &c., and has directed the use of the calipre and head rod system of guaging, in order to ensure a correct and uniform system of inspecting and guaging in the United States. The Secretary has appointed a special agent of the Treasury, and three experienced inspectors and guagers, J. W. Guyse, of Cincinnati, Justin H. Alos, of Peoria, and Wm. T. Prime, of Baltimore, who will act, under instructions of the Commissioner in this matter. These gentlemen will immediately commence the visitation of the several districts assigned respectively, for the purpose of instructing the general Inspectors of spirits and Inspectors of coal oil in the use of the instruments prescribed by the Secretary; and every Collector is expected to facilitate their labors. The new hydrometers will at present be furnished at the expense of the Government only to General Inspectors who are actively engaged in the performance of their duties.

OUTRAGES IN TEXAS.

The Freedmen's Bureau has received a letter from Grayson county, Texas, saying that the Government must do something to protect the negroes, two having been most brutually murdered within the last few days. The ruffians are continually maltreating the blacks. Within a circle of twenty miles a dozen of men have been assassinated.

REVENUE FRAUDS.

The report of Mr. Darling, from the Committee on Frauds, on the Internal Revenue, presented to the House to-day, is very long. It states the investigation was confined to the cities of New York, Brooklyn and Philadelphia, and notwithstanding its incompleteness, enough has been elicited to satisfy the Committee that in the manufacture and sale of tobacco, cigars and spirits, especially the latter, stupendous frauds are practiced against the Government Internal Revenue. It is believed that at least seven-eighths of the entire spirits manufactured under the present law have escaped the tax, and the Committee felt warranted in the assertion that few, if any large distilleries in the United States, are doing a legitimate business. They doubt the propriety of compromising cases where the law has been violated, and suggest that no whisky be taken from a distillery or from bond, for redistillation, without the payment of tax. They also disapprove paying informers as levying a system of black mail; and in conclusion assert that while there may be some meritorious officers, nevertheless the frauds in those cities are so universal and gigantic, the morals of manufacturers have become so tainted, confidence in local officers has become so shaken, that it is believed the laws will never be executed until there shall have been a reorganization of the revenue force. The Committee in view of the dissolution of Congress do not embody their conclusions in the shape of a bill, but suggest such changes to be made hereafter as will ensure to the Government, the collection of its revenue.

APPOINTMENTS CONFIRMED.

The Senate confirmed John M. Byres, Surveyor of Customs at Nashville; George P. McLean, do. at Pittsburgh; Eugene Howell, Collector of Internal Revenue, 8th district Ohio; B. F. Ccoles, do. 11th district Ohio; George Anderson, do. 9th district Ohio; Hampton D. Denman, of Kansas, Indian Superintendent of the Northern Superintendency; George Latham, of West Virginia, Consul to Melbourne; Willard Slocum, Assessor of Internal Revenue, 10th district of Ohio; James M. Meibling, do. 5th district of Ohio; Edgar Spaulding, Collector of Customs for the port of Huron, Michigan; H. K. Dodge, Postmaster, Columbus, Wisconsin.

CONSOLIDATING THE NATIONAL DEBT.

The bill introduced by Senator Sherman to-day authorizes the Secretary of the Treasury to issue bonds, bearing not more than six per cent. interest, payable in coin, the proceeds of which shall be applied exclusively to the payment or purchase of the existing indebtedness, these bonds to be known as the "Consolidated Debt of the United States." The bonds are to be subject to an annual tax of one per cent. on the amount, in lieu of all other taxation. The amount received for the tax is to be paid into the sinking fund for the redemption of the debt. The Chief Justice and the Secretary of the Treasury shall be commissioners of the sinking fund, and prescribe rules for the management and the disposition of the fund. The issue of five hundred millions in bonds, at five per cent. interest, principal and interest payable in Europe, is authorized. The bill will not be called up at this session.

INTEREST FUNDING BILL.

In the Senate, at ten o'clock on Monday night, just before adjournment, Mr. Sherman reported from the Finance Committee on the Compound Interest Funding Bill. The Committee recommend non-concurrence in the House amendment, and report the bill as it passed the Senate in the nature of a substitute.

THE FINANCIAL POLICY.

The proposition to redeem compound interest notes by the issue of greenbacks, will not be compromised in the Committee of Conference. The redemption of compound interest notes with greenbacks, will, nevertheless, be opposed in the Senate, on the ground that the Treasury Department is abundantly able to pay for compound interest notes when due, without resort to a fresh issue of greenbacks. Mr. McCulloch fully agrees with the House bill, which give him discretionary power to issue no more greenbacks than he may deem necessary, instead of one hundred million dollars as provided for by the last bill.

A PITTSBURGH COLORADIAN.

Hon. C. S. Eyster, formerly of Pittsburgh, one of the Associate Judges of the United States Courts in Colorado, is now on a visit to Washington. He was appointed in October last by President Johnson. Judge Eyster is well known in Pennsylvania. He gives the most glowing description of Colorado. Its amazing agricultural and mineral resources, its climate, its water powers, have filled him with surprise, and as it is the most accessible of all that part of our public domain which has latterly come into cultivation, he recommends young men everywhere to hasten forward and settle among its people.

THE CUBAN SLAVE TRADE.

The Government is satisfied, from Commander Cooper's cruise around the Island of Cuba, and the result of his enquiries, that no landing of negroes has taken place or any expedition been fitted out for upwards of a year, the importation of coolies having in a great measure done away with the slave trade.

APPOINTED.

The President has nominated Col. Robert O. Tyler, of Connecticut, as Assistant Quartermaster General, with the rank of Lieutenant Colonel.

PUT IN AN APPEARANCE.

Mr. Nye, of Nevada, appeared in his seat to-day, for the first time this season.

[From the Times Correspondence.]

There are good grounds for stating that the President will send in his veto of the reconstruction bill on Wednesday next. It is possible that the tenure of office bill will become a law without his signature.

General Grant is reported to have said, on good authority, that he regarded the reconstruction bill as very unwise legislation. All the members of the Cabinet, with one exception, are decidedly opposed to the bill.

The fate of the House bill authorizing the payment of the compound interest notes in new greenbacks, is extremely doubtful.

[From the Tribune Correspondence.]

It is conceded that there will be no opposition in the Republican party to the following named gentlemen as officers for the next House: Colfax, for Speaker; McPherson, for Clerk; Ordway, for Sergeant-at-arms; and Given for Postmaster. Probably there will be a new man presented for Goodenow's place as Doorkeeper.

The President has submitted the tenure of office bill to the Attorney General, it being claimed that the bill is unconstitutional.

One hundred and fifty leading Democrats of New York have signed a request to the President that he sign the military reconstruction bill.

The fate of the legal tender bill is uncertain. Senator Wilson will move a new section providing that it shall be unlawful for National Banks to allow or pay interest on deposits made in said National Banks by any other National Bank. This business, it is alleged, causes nearly all the financial trouble in Wall street.

The Senate will reject the proposition reported by the Committee on Foreign Affairs to raise the position of our representative to Brussels, Henry S. Sanford, to a full mission.

[From the World Correspondence.]

The arrival of John A. Andrew in Washington revives the clamor that he is to have a seat in the Cabinet.

The friends of the Tariff bill consider it as virtually killed.

A Special Committee on Revenue favor a reduction in the whisky tax, but the Ways and Means Committee are very much opposed to it.

[From Evening Chronicle Dispatches.]

The friends of the President to-day assert positively that he will not pocket the military bill, but that he will send in his veto message to it on Wednesday. This bill was considered at a Cabinet session on Saturday afternoon, when every member present opposed it except Mr. Stanton. Gen. Grant, who was on hand, said that he looked upon this bill as a piece of very unwise legislation.

Fears are expressed here by some that Surratt, under Judge Fisher, will be allowed to prove an alibi, and that he will be at large in thirty days.

Should the House agree to Mr. Blaine's amendment to the tax bill, placing cotton on the free list, there will not be enough internal revenue tax collected next year in the cotton States to pay the expenses of collection in those States.

It is rumored that a leading radical Senator will next session move to refer the credentials of Hon. Thomas Swann, Senator from Maryland, to the Judiciary Committee, with power to send for persons and papers, and general inquiry with reference to the enforcement of the Registry laws in Maryland, at the election last fall, when a majority of the present Legislature was elected, and pending this investigation Mr Swann will be denied admission to his seat.

RECONSTRUCTION.

A Long Letter from Gov. Brown, of Georgia, Urging the Acceptance of the Sherman Bill—His Views as to Negro Voting.

Atlanta, Ga., February 26.—Ex-Governor Brown will publish to-morrow morning, a three column letter reviewing the political situation of the country, and advising the people of Georgia to accept the terms imposed by the bill recently passed by Congress. He says: "I consider it the duty of the Governor to call the Legislature together, without delay, and recommend the passage of an act calling a convention of the people to change our State Constitutions so as to provide for universal suffrage, in conformity with the measure which has passed Congress, known as the Sherman amendment, and provide for an early election of a Legislature which will adopt the Constitutional amendment in accordance with said requirement. We now have the assurance of Congress, in the passage of this bill, that this shall settle the question of our admission. We shall never get better terms. Let us comply with them." He suggested public meetings to urge upon the Governor the convening of the Legislature, whose imperative duty it is to refer the question to the ballot box in the election of delegates to a Constitutional Convention. He claims that the colored people naturally sympathize with the South, saying their conduct during the war proved this. If we treat them kindly, pay their wages promptly, and in all respects deal justly by them, we shall seldom have cause to complain of their refusal to respect our wishes or consult our interest at the ballot-box.

The Fenian Movement in England.

New York, February 25.—Files by the Deutschland, show by official Parliamentary statements, and police and military reports, that the Fenian movement against Chester Castle was a very serious and alarming affair, undertaken after due deliberation, and carried to the verge of completion with rapidity and skill. An Irish-American officer, serving in the Fenian ranks, betrayed the secret to the authorities, and saved in all probability great trouble in England. The Chief of Police in Chester states that a Fenian military directory, consisting of fifty men, mainly from New York, hold regular sittings in the chief towns of the United Kingdom.

Meeting of Pittsburgh Councils.

Last evening both branches of the Pittsburgh Councils held a regular meeting in their respective chambers, City building.

SELECT COUNCILS.

There were present Messrs. Armstrong Coffin, Crawford, Dickson, McCarthy McEwen, Morrow, Rees, Shipton, Tanner, White, Wilson, and President McAuley.

The minutes of the previous meetings were read by Clerk Morrow and approved.

Mr. Shipton presented a petition from Archibald Wallace, asking that Pasture alley, in the Sixth ward, be graded and paved, in order that it may be placed under the supervision of the Street Committee, and this be improved in its sanitary condition. Read and referred to the Street Committee.

THE MARKET BOOTHS.

Mr. Gallaher presented a petition numerously signed by merchants and citizens, of which the following is a summary. The petitioners showeth that they have for many years been renters of stands in the Pittsburgh market house, and have occupied them for selling varieties, goods, tin ware, &c. That the annual revenue derived from these stands exceeds $7,000; that they have received notice from the Market Committee to vacate these stands on the 1st proximo. Many of them have a considerable amount of stock on hands and if compelled to leave now would be at a very considerable loss, inasmuch as they have no places of business in which to sell the goods, and are unable to procure any place to rent except at unreasonable rents. The petitioners suggest that in case the hucksters were all removed from the Southern end of the market house, there would be room to supply all legitimate demands therefor. The petitioners ask to remain, and that the time for removal be extended.

Mr. Gallaher stated that all of the dealers were poor men, some soldiers and some cripples, and the keeping of these booths was their only way of subsistence. He thought the summary notice to quit given by the Market Committee to be unjust and barbarous. He would therefore offer the following resolution.

Resolved, That the occupants of the stalls in the Market House be re-leased the premises occupied by them at a reasonable advance of rent for the period of one year.

Mr. Reese thought that the Committee should be sustained in its action, although he was in favor of giving an extended time for quitting. The market space was contracted and inadequate to the wants of the marketing community.

Mr. Shipton was in favor of giving the stall renters reasonable notice of one year that new arrangements will be made in 1868.

Mr. Morrow thought, with Mr. Shipton, that reasonable notice should be given the tenants, but that the stalls should be vacated in favor of the country-people who bring their products to market.

Mr. McAuley said that he had seen times when if all hucksters were cut off we would have nothing to buy in our markets. He was in favor of giving the lessees a reasonable length of time to quit.

Referred to the Market Committee with instructions to give at least three months notice to quit.

GRADING AND PAVING.

Mr. White presented an ordinance for the grading, paving and setting with curbstones of Second street, Eighth ward, 20 feet east of the Public School to a point 400 feet east of the eastern side of the Birmingham bridge.

Mr. McEwen read a petition for the grading and paving of Mercer street, Sixth ward. Referred to the Committee on streets.

Mr. Tanner presented a petition of Levi Israel and Jos. Benedict, asking Councils to appoint them to remove all dead animals from the streets of Pittsburgh.

An ordinance accompanied the petition for the removal of all carcasses out of the city limits. Read and referred to Ordinance Committee.

Mr. White presented a petition from W. O. Hughert, Esq., President of the P. & C. R. R., asking that the Connellsville Railroad be relieved from an assessment for the construction of the Pennsylvania avenue sewer. Referred to Street Committee.

ADDITIONAL FIRE ENGINE APPROPRIATION.

Mr. Wilson presented the following resolution:

Resolved, That from the appropriation No. 4 (Fire Engine and Hose) there shall be paid to each of the steam fire engine companies within the city, the sum of $3,000, payable under the direction of the Committee on Frie Engines and Hose. Provided, that each of said companies shall file with the Controller an agreement not to collect, either directly or indirectly, from citizens, any money for the use of said company. And if at any time the said Controller shall be satisfied that any company has violated the provisions of the resolution, he shall refuse to certify any warrant in favor of such company unless the same has been ordered by Councils.

Read and adopted.

Mr. McCarthy offered an ordinance granting the Pittsburgh, Allegheny and Spring Garden Passenger Railway Company right to lay their tracks, with necessary switches and turn-outs, from Liberty street to the Hand Street Bridge. Read and referred to the Street Committee.

Read and laid over under the rules.

A NEEDED IMPROVEMENT.

Mr. Dickson offered the following; Resolved that the Street Committee be requested to have flag stone crossings put down at the intersection of Penn and Canal and Liberty and Canal streets, and that the street commissioners of the first district be authorized to have flag stone crossings put down on the North side of Liberty street, at the points where the railroad crossings are now located near Canal street, at the proper cost and charges of the companies to which the railroad crossings belong. Read and referred to Street Committee.

Mr. Hare, from the Committee on Fire Alarm Telegraph, presented the following:

To the Select and Common Councils—Gentlemen:—The resolution granting to the "National Telegraph Company" certain privileges, which was referred to the Committee on Fire Alarm Telegraph, has been taken into consideration by the Committee. The Committee report that, in their opinion, it would prove an injury to the Fire Alarm Telegraph to permit any wire to be placed about it.

J. H. Hare, James Reese, } Com.

The report was read and accepted.

Mr. Mawhinney presented a petition from the property holders of the Eighth ward, praying that Boyd street, from Pennsylvania avenue to its intersection with Forbes street, be graded and paved. Referred to Committee on Streets.

Special Meeting of the Allegheny Councils.

A special meeting of the Councils of Allegheny City was called for last evening for the purpose of considering the sale of the Poor Farm and transacting such other business as might come before them.

SELECT COUNCIL.

Present—Messrs. Drum, Hall, Irwin, Myler, Patterson, Thomas and President McBrier.

The President announced that the meeting had been called at the instance of the Committee on the Poor Farm, to consider the bill laid over from the last meeting.

On motion of Mr. Patterson, the report of the Committee was taken up for consideration.

By request, the President read the bill.

Mr. English stated that the Directors of the Poor had ascertained that a new farm could be obtained without difficulty, and that a much better farm than the present one could be purchased and stocked, and new buildings erected on the credit which could be obtained on the prospect of selling the old farm, without issuing bonds or making any appropriation. He therefore, moved that the bill be amended by striking out all portions of the bill relating to bonds. Carried. The bill, as amended, was then adopted.

On motion of Mr. Drum the rules were suspended, that other business might be transacted.

Mr. Drum then presented an act repealing so much of the present act of incorporation as limits the term of service of the Mayor of the city, to one year, and extending the term of office to two years, and offered a resolution instructing the clerks to forward the bill to the Legislature.

Mr. English moved to amend by extending the term to three years, and prohibiting the Mayor from serving more than one term consecutively.

Considerable discussion ensued on the proposed amendment. The amendment was lost.

Mr. Drum then moved to amend the bill so that the incumbent should be eligible for only two consecutive terms. Carried.

The bill, as amended, was then adopted.

Mr. Patterson offered the following resolution:

Resolved, By the Select and Common Councils, that the City Solicitor be, and he is hereby instructed, to prepare a bill for presentation to the Legislature, amending the act of "May 8th 1850, authorizing the City of Allegheny to levy and assess a business tax," by striking out all after the words "as other city taxes are now levied and collected." Adopted.

Mr. Thomas, from the Water Committee, offered the report of that committee embodying an ordinance providing for a reduction of twenty per cent. on the old water rates, as provided for by the appropriation ordinance.

Mr. Patterson moved to amend the ordinance by making the tax on meters twelve cents instead of ten cents per thousand gallons, so that the tax on meters shall remain as at present. Carried.

Mr. Thomas moved to amend the ordinance still further by exempting the churches of the city from water tax. Carried.

The ordinance, as amended, was then adopted.

On motion, the ordinance passed to a third reading, and was finally passed.

A resolution was then passed authorizing the laying of water pipes on Gas alley, from Western avenue to Beech street.

Mr. Hall offered a resolution instructing the Water Committee to make no reduction on water rates, except to private consumers. Adopted.

Mr. Drum presented a bill from Mr. William Dilworth, for $500, for the construction of sewers. Referred to Street Committee.

Mr. Hall presented a petition from the tax collectors, asking for an increase of per centage on unpaid taxes. Referred to the Finance Committee.

Mr. McBrier (Mr. Hall in the chair) offered the following resolution:

Resolved, That the Committee on Streets and Sewers be and are hereby directed to prepare a bill, and report it at the next meeting of Councils, levying a general tax for the construction of sewers.

Considerable discussion ensued, when, on motion of Mr. McBrier, the matter was laid over till the next meeting of Councils.

On motion, adjourned.

COMMON COUNCIL.

Members present—Messrs. Cutler, Dunham, Drennan, Hanna, Horn, Ingham, Kirkpatrick, Megraw, McNeill, McDonald, Smith, Slagle and President Riddle.

The minutes of the last meeting were read and approved.

The President stated that the meeting was called for the purpose of taking action in reference to the City Poor Farm.

On motion of Mr. Ingham, the rules were suspended in order to take up other business.

Mr. Hanna offered the following resolution, which, on motion of Mr. Smith was adopted:

Resolved, By the Select and Common Councils of the city of Allegheny, that one of the stoves formerly in use in the Council Chambers, be and is hereby donated to the Allegheny Soldiers' Association.

Mr. Megraw presented a petition from property owners on Ohio and Avery streets requesting Council to pass an ordinance to open the continuation of Virgin alley, to the alley which runs from Ohio street to Avery street, was referred to the Street Committee.

Mr. McDonald presented the report of the Committee on Gas, accompanying which was the follow resolution:

Resolved, That the Committee on Gas be, and they are, hereby instructed to have two gas lamps placed on Palo Alto street, in the most suitable location for the same.

On motion, the report was accepted and the resolution adopted.

Mr. Smith offered the following resolution, which was adopted:

Resolved, That the Committee on Fire Engines be instructed to visit the General Grant Engine House and report what improvements and repairs are necessary on the engine house, the fire apparatus and the working implements of the company.

Mr. Ingham offered the following resolution:

Resolved, That the Committee on Fire Engines, in connection with the Controller, be, and they are hereby instructed to enter into a contract with Messrs. Gamewell, Kennard & Co., for erecting their Fire Alarm and Police Telegraph, at a cost not exceeding $8,500.

Mr. Smith moved that the resolution be adopted.

Mr. Megraw opposed hasty action in the matter. He was opposed to the adoption of the system now in use in Pittsburgh, and thought that the matter should be reported by the Committee on Fire Engines, before action was taken by the Council in the matter.

Mr. Hanna said that the first thing for consideration was, did the city really need a fire alarm telegraph, and next as to the best system to adopt. If the mind of the members had already been fixed, then it was unnecessary to further delay action in the matter. He was in favor of the Pittsburgh system, owing to its completeness and correctness.

Mr. McNeill said he was not prepared to vote on the adoption of the resolution, and moved that it be referred to the Committee on Fire Engines.

Mr. Megraw was in favor of Mr. McNeill's motion.

Mr. Smith said that the matter has already been before the Committee on Fire Engines, and therefore, thought that action should not be further postponed by Council. He was opposed to Mr. McNeill's motion, and in favor of the adoption of Mr. Ingham's resolution.

The question was then taken on Mr. McNeill's motion, which resulted in its adoption by a vote of seven yeas to six nays.

In all of which business Select Council concurred.

On motion, Council adjourned.

Tired of Riding.—Yesterday afternoon considerable excitement and fun was occasioned in the neighborhood of the Mayor's office, in Allegheny, by the antics of a sheep which was being conveyed, with three or four others, along Ohio street, in a wagon. When the wagon was passing the Mayor's office, the animal, acting on a sudden impulse, bounded awkwardly over the tailboard of the vehicle, landing on his back in the street. Before the driver could jump out, the animal, foot-bound as it was, had got upon its legs and started off at an awkward though very rapid gait, towards the watch house, seeming to fall naturally into the path pursued by so many sheepish individuals. The owner pursued the fugitive, and only succeeded in capturing him after a sharp and tolerably long chase.

A Strange War Case—Drafted but not Drafted.

A German, living in East Birmingham, came to the Mayor's office yesterday and told a singular story of war experience. He states that he is a poor man, about forty-five years of age, with a wife and three children. On the 21st day of July, 1864, he was working at the Brownstown rolling mill, when an officer connected with the office of a south side magistrate, came to him and told him that he was required as a witness in a case then in progress at the said magistrate's office. He went with the constable, and instead of being sworn as a witness, was sent under arrest to the Provost Marshal's office, in the Girard House, being informed that he was arrested as a deserter, having been drafted and not having reported. Before the Provost Marshal he denied this, stating that he could not have been drafted, as he lived in East Birmingham, where there had been no draft. On the 22d, however, he was sent to report at Camp Reynolds. He reported accordingly, and on the 23d was sent back to the city with the information that his name did not appear on the rolls of the Camp. The next day he was sent back to the camp and was the same day returned to the city as before. On the 25th he was returned to camp with the statement that he was a non-reporting drafted man, and was arrested as a deserter. He was then sent to Harrisburg, and thence to the front, where he remained, participating in several engagements, until he was mustered out. Even on his discharge he is described as a deserter. While he was away his wife and children were reduced to absolute beggary, and now, owing to the scarcity of work, he and those depending on him, are in a state of the most abject poverty. Such is the story he told, whether it is true or not, we have no means of judging, until the investigation, which is to be made, has been concluded. Meanwhile we suppress all the names in the case.

Grand Clearance Sale at McClelland's Auction House Headquarters, 55 and 57, Fifth Street.

The great clearance sale at the Auction House merchandize headquarters of T. A. McClelland, Nos. 55 and 57 Fifth street still continues. He has determined to get rid of the immense stock of goods now on hands regardless of price, and is offering such bargains as were never before obtained in this city. Every style of boots and shoes of the best make and finish, together with a large assortment of dry goods, woolen goods, clothing and material for men and boys' wear, fur, blankets, and general house-furnishing goods are now offered at prices very cheap. Call in and see for yourselves, as, whether you are desirous of purchasing or not, attentive and gentlemanly salesmen will take pleasure in waiting upon you.

This sale is peremptory, as all the goods must, within a short time, be disposed of, and, of course, no regard to cost has been shown in the marking down of the goods. McClelland's house has long been regarded the headquarters for cheap bargains, and now as an extra inducement is offered, the salesrooms are thronged with customers day and evening. Go at once, if you would consult your own pecuniary interests, for at the rapid rate the goods are now going off the clearance cannot last long. Remember the place, Nos. 55 and 57 Fifth street under Masonic Hall; and remember also, that nowhere in the country, can greater bargains in any line of goods be obtained.

Alleged Adultery.

Fanny Wiggins, on Saturday, made information before Alderman Donaldson, charging Pardon Wesley, of the Revere House, with adultery. It appears that the prosecutrix, with several others, was engaged to dance in the ballet troupe at the Pittsburgh Theatre, in January last, and were sent to the Revere House to board, rooms having been engaged for them there. It is alleged by the prosecutrix that on Thursday evening in the last week in January, the accused came to her room after she had retired, representing that his wife had gone to Uniontown and would not be back for some days. Friday night he came back, and Saturday night he stayed all night in her room. Another of the girls occupying an adjoining room, testified that she saw defendant in the prosecutrix's room on the nights mentioned and that she saw him leave the room on Sunday morning, and also, that he had attempted to gain her consent to occupy her room with her. The accused was arrested by officer Sarber and held to bail to answer at Court.

Alleged Attempt at Rape.

Yesterday Mrs. Barbara Dill, a woman of about forty-five years of age, in the Fourth ward, Allegheny, made information before Mayor Morrison, charging Bernard Wrigley, a young man of twenty-three or four, with attempting to commit an outrage on her person, in the street. The alleged attempt was made shortly after nine o'clock, on Sunday night, at the corner of Main and Chestnut streets. The prosecutrix was passing along there at the time mentioned, when she met the accused, and he attacked her, catching hold of her, and attempting to throw her down. She made an outcry, and officers Jacob Poland and Jacob Sarber, running to the spot, captured the fellow before he had time to escape. They conveyed him to the lock-up, where he remained until yesterday afternoon, when he had a hearing on the information made in the morning by the victim of his alleged attempt. He was held to bail for a further hearing.

Bank Election.

Yesterday the annual election for Directors of the Coalmen's Trust Company, was held at the office of the Company on Wood street. The election resulted in the unanimous choice of the following named gentlemen: A. J. Baker, W. S. Patterson, W. A. Herron, Wm. Motheral, Thomas Farrow, James H. Hopkins, A. J. Hagan, H. A. Freyvogel, J. D. Johnson and D. L. Patterson. To-day the Board will organize, and beyond doubt, A. J. Baker, Esq., will be chosen President. He is a careful, shrewd and well posted financier, and under his direction with such a Board, the Banking Company must prosper. The company has not yet decided where their place of business will be during the year commencing on the first of April.

Presentation to a Clergyman.

Yesterday afternoon, a number of the members of the Liberty Street M. E. Church presented to their late pastor, Rev. S. F. Jones, a very fine gold watch, worth $225, as a slight token of their high appreciation of him as a pastor, Christian, gentleman, and friend. W. D. Patterson, Esq., made the presentation speech, in his usual very felicitous manner; and was happily responded to by the recipient. The Reverend gentleman has recently severed his connection with his congregation in this city, having received a call from Massachusetts, and the presentation was the result of his decision to accept the position tendered, and departure from the city.

Dead.

We announce with regret this morning the death of Mr. John Shehan, who was injured on the Pittsburgh, Columbus and Cincinnati Railroad some time since, on the same day that David F. Highberger came to his death. Shehan was severely injured on the thigh, and it was concluded yesterday morning that the only chance of saving his life was by amputating the injured limb. This was done by Drs. George McCook, R. S. Sutton and E. Umbstatter, but the shock was too great for the wounded man's frame, and he expired about an hour after the operation had been performed.

The Stewartstown Rape Case.—Philip Hust and Wm. Stewart, charged, on oath of Sarah Smith, with assault and battery with intent to commit a rape, were up for a hearing yesterday before Alderman Strain, Assistant District Attorney appearing for the Commonwealth, and Gen. Collier for the defense. The alleged assault was committed on the night of the 15th inst., in the house of Justice Smith, of Shaler township. The prosecutrix had gone there to ascertain something concerning her children, who were "bound out" in that neighborhood. She was herself at the time, according to admission yesterday, somewhat under the influence of liquor. The case was continued until Saturday afternoon at two o'clock.

An Outrageous Assault.—An evening or two since a very respectable lady was attacked on High street, near Fifth street extension, by a drunken rowdy named Sullivan, and grossly assaulted. He struck her several times, and pulling her shawl from her shoulders, tramped it in the mud of the street. No cause is assigned for the wicked and malicious assault other than a reckless, drunken idea to attack a lady he did not know. No information has been made against the fellow, who richly deserves the severest punishment of the law.

A Barrel of Salt.—Some five weeks ago a barrel of salt was left by some unknown person, at Mrs. Howe's tobacco store, on Smithfield street, and was not called for subsequently. It was eventually given into the hands of officer Joseph Busha, who removed it to the office of the Captain of the night watch, on Diamond alley, where it still remains. Whoever owns it had better call for it speedily, as if not soon called for, it will be disposed of according to law.

Pittsburgh Home Missionary Society.—The annual meeting of this society will take place at Christ M. E. Church this evening. Rev. Dr. C. A. Holmes will preside. It is expected that Rev. Dr. W. A. Davidson, formerly of this city, and Rev. S. F. Jones, A. M., pastor of Liberty street M. E. Church will deliver addresses. Reports of an interesting character will be presented.

The Dollar Savings Bank Defalcation.

[A CARD.]

To the Depositors of the Dollar Savings Bank:

A defalcation has been developed in the Bank presumed to be $35,000, which we believe to be the full extent of the loss, which, in the judgment of the most expert accountants, was unavoidable. It will not affect the real interests of the Bank in the least degree. No one loses of the depositors. It is a loss of part of the Contingent Fund, which is now $146,000 over and above the amount of deposits now in the Bank and places the Bank in the same or a stronger condition than in June 1865, or in 1862, when the deposits were $564,000 and the Contingent Fund was $22,000, as can be ascertained by referring to the books or printed report. The amount of deposits last December was $2,030,000; the Contingent Fund $146,000. If the defalcation proves a final loss, the Bank has only lost the last year's profits. The undersigned procured an act from the Legislature to create this Fund in 1862, to protect the depositors from unavoidable losses which might occur.

It is presumed that two-thirds or more of the loss will be recovered from the securities of M. T. E. After a more minute investigation the public may rely upon receiving a correct statement of it.

George Albree,
President of the Dollar Savings Bank.
Pittsburgh, February 25th, 1867.

Fire in South Pittsburgh—More Incendiarism.

This morning, at half past one o'clock, a stable belonging to Oliver Adams, a colored blacksmith, situated on the side of the hill in South Pittsburgh, about two hundred and fifty yards above the suspension bridge, was burned to the ground, together with a small quantity of hay which it contained. His residence adjoining, a two story brick, was with some difficulty saved with but slight damage. The loss will not exceed two hundred dollars. The fire was first discovered issuing from the hay-loft, and was doubtless caused by an incendiary.

Dr. Elder's Lecture.

Our readers will bear in mind that Dr. Elder, the learned statistician of the United States Treasury Department, delivers his first lecture in this city, upon "Our National Finances," this evening, at the Academy of Music. He will treat the subject in a pleasing and instructive manner, and those who attend will come away with a better idea of our national finances and the true basis of the wealth of the country, than they ever entertained. It is a subject on which the great majority are ignorant, and with which no man in America is as familiar as Dr. Elder.

Guilty of Murder in the First Degree.—As we stated yesterday morning, the jury in the case of Fogler, tried in Washington county for murder, retired on Saturday evening to deliberate on a verdict. After an absence of an hour and a half, they returned a verdict of "Guilty of murder in the first degree." The prisoner listened to the verdict with perfect composure. He was remanded for sentence. Montgomery's trial commenced yesterday. Fogler will be a witness on the trial.

Badly Drunk.—Officer Patton, of the Allegheny night watch, on Sunday night arrested a man named John Burke, on Federal street, Allegheny. The prisoner was very much intoxicated, and was scarcely "straightened up" at the hearing yesterday morning. He was sent to "the hill" for twenty-four hours.

A Good "Collection."—We understand that the collections and subscriptions taken up on Sabbath last, at the new Baptist Chapel, amounted to about eight thousand dollars, and the prospects are quite hopeful that the remaining debt will be cancelled at an early day.

The Nation's Opportunity.—Mrs. Harper, the distinguished colored lecturer, holds forth upon this subject to-night at City Hall. For a rare and rich intellectual treat go and hear this lady, as she is without an equal in America.

PROCRASTINATION.

When Congress assembled last December, its members understood that upon them devolved many duties of the greatest delicacy, difficulty, and importance. No law-making body was ever charged with a weightier responsibility. The industry of the country was paralyzed, the currency in a perplexing condition, the taxation most onerous. But over and beyond these questions towered another of much more serious magnitude. The foundations of the government were to be laid anew; and so laid as to repress and punish treason, and to secure the rights of four millions of blacks, from whose limbs the thunderbolt of war had stricken the chains of bondage. It so happened, moreover, that the session was the short one, only affording ninety days for devising and maturing all the needed measures.

Instead of grappling at once with these grave labors, determined to waste no time, the Houses, after remaining in session for a few days, without accomplishing anything of consequence, or preparing the way therefor, adjourned over the holidays. The uppermost thought was not to see how best the great labors laid on the members could be discharged, but how they could contrive to have a joyous season of it.

Nor was much more assiduity manifested after the vacation. A full month was squandered in useless wrangling. While the country was suffering for want of definite and intelligent action, the days were consumed in debates that "darkened counsels by words without knowledge." Most of the important bills were crowded over into the last month; and altogether undue proportion of them into the last fortnight.

What makes this delay the more censurable is the fact that the President and Congress are at antagonism on most of the subjects requiring fresh legislation. The look now is that a number of most important bills will either be lost entirely, or else be hurried through in crude and undesirable forms. Some of the most important ones will reach the President so late that he will be spared the necessity of vetoing them, because the Houses will dissolve before the ten days allowed him for consideration in each case will close.

It is fortunate for the country, therefore, that provision has already been made for the assembling of the new Congress on the 4th of March. Wherein the Thirty-ninth Congress fails in the performance of its duties, the Fortieth Congress can promptly apply the remedy. Let us hope that it will avoid the danger and mischief of procrastination.

DIPLOMACY.

In former ages diplomacy was a game of mystification and falsehood. The Minister or Ambassador who was most fertile in inventing deceitful reasons, pretexts, motives and intentions, was regarded as the most expert and valuable public servant. To avow what was really intended, and to assign the true reasons therefor, was regarded as puerile and irrational. FRANKLIN, ADAMS, and other negotiators, towards the end of the last century, did much by their examples and abilities to establish a better model. Sheer lying ceased to be held as consummate statesmanship, and torturous policies as indicative of mental superiority.

For the last six years, under Mr. SEWARD, the diplomacy of the United States has been a standing reproach, and in more respects than one. He seems to to have fallen back on the dicta of NAPOLEON I., embodied in one of his tartly admonitory lettters to his brother JOSEPH, that "*lying is a power.*" For a long while TALLEYRAND was the most shameful expert in that bad school of which MACHIAVELLI was the profoundest and most indecent teacher. Mr. SEWAAD has overtopped his disgraceful pre-eminence. At home or abroad he has earned a reputation for dissimulation and insincerity, which will brand his name as infamous to the end of time.

At first his methods were well chosen; but latterly his art in that particular has failed him, and his blunders provoke universal derision. And he does from bad to worse. His late Mexican adventure, in which a distinguished soldier and a weak civilian were sent to and fro on a sleeveless errand was bad enough; but the absurdity of this is overmatched by his last exploit of sending the Assistant Secretary of State and a gallant commodore to buy St. Domingo. A more ludicrous farce in the way of diplomacy has not been enacted for a century.

As the Secretary increases in years he grows in a stupid audacity, which confounds all his early admirers, and entails indelible disgrace upon the country. Having suffered the decay of intellectual powers and the blight of personal habits, he seems intent on dimning that just renown which was the ripe fruit of his early labors, and on passing from the scene of many activities under a hopeless eclipse.

RECENTLY, on several important divisions in the House of Representatives, a singular spectacle has been presented; the Democrats sided with the Radicals to defeat the comparatively mild measures the Conservatives were disposed to carry. Professing a disposition to let the rebels off on the easiest terms that can be procured, they so voted as ultimately to bring upon them the hardest conditions advocated in any quarter. See how this operated the other day, when the Democrats prevented the adoption of the Senate amendment (SHERMAN'S) to the House Military Government bill (Mr. STEVENS'S). The House bill deprived the rebels of the right of suffrage, while conferring it on the blacks. The Senate amendment, while granting suffrage to the blacks, gave it, also, to all the whites, simply enforcing the third section of the pending Constitutional Amendment, which debars the higher grade of rebels from holding office. The Democrats voted in a body to exclude the rebels from voting, and to prevent a speedy settlement of all the matters in dispute. Of course, their pretext is that they wanted still more liberal terms than was proposed either by Conservatives or Radicals. But in such cases public men and parties are properly judged by what they actually accomplish. Statesmanship does not consist in a rigid adherence to theories, but in doing the best that can be done under the circumstances.

THE Temperance Convention, which assembles to-day at Harrisburg, will be attended by delegates from every city, town and village in the State. We hope the delegates will not occupy their time in speech-making, but prepare some practical method of abating intemperance, so that the Convention may not be without its good fruits.

THE RATE OF INTEREST.

A bill has been introduced into the Legislature of this State to increase the legal rate of interest to seven per cent. While we should prefer to leave the question of interest to be settled in each case by the contracting parties, simply providing for a legal rate if they should fail to fix one, we see no probabilty of the adoption of that measure for some years to come. Under that aspect of the case we are in favor of the rule now proposed.

New York, wiser in this particular than Pennsylvania, has always allowed seven per centum, and has gained vastly in consequence. The difference of one per cent. per annum is ten dollars in the thousand, which in the large and immense transactions in a great Commonwealth, rises to a sum almost incalculable in a single year. A premium of one per cent. is a large bonus, and however we may calculate on the patriotism of business men, the profits to be derived will determine where they will locate. What is it that drives capital from Holland, France and England for investment in this country? The low rate of interest there and the high rates prevailing here. The same inducement operates among our own people.

This difference in the rate of interest has contributed largely to the commercial supremacy of the city of New York. Notwithstanding the rate of interest is high, profits are still higher, and more than equalize the difference. This advantage runs through all departments of trade, affects every branch of business, and enables New York to control the money market of the country.

We learn that a great number of new dwelling houses will be erected in Pittsburgh and Allegheny as soon as the weather grows favorable for the prosecution of the work.

—In dissecting the corpse of a pauper at the Twenty-third Street Medical College in New York, recently, the students unexpectedly found evidence that another human being had been devoured by the infinitesimal worm which the faculty style trichinæ spiralis. The intestines, when subjected to microscopic examination, proved to be literally alive with these minute destroyers, and they were found in abundance everywhere in the muscular tissue. The body was that of a woman of whom the hospital authorities knew nothing, beyond the fact that she was a pauper, and died soon after her admission to Bellevue Hospital, and, as a subject that had perished of an unknown malady, had been surrendered to the surgeons for dissection. Trichinæ in enormous numbers having been discovered in the body, the surgeons strove to ascertain something of the history of the woman's case, hoping thus to add to their stock of information concerning the origin of these destructive worms, and of the symptoms of a sufferer afflicted by them; but their inquiries were fruitless, and all that is left them is a carcass which worms converted into food for the dreaded Worm.

—From time to time we read of much-lauded improvements in the processes for tanning leather. The latest is one said to be in successful operation in the West. By this the tanning is claimed to be accomplished in twelve hours, by exhausting the air from the vat. It is said that a sheepskin can be tanned in fifteen minutes, and that the weight of leather is ten per cent. greater than by the old processes. It is to be hoped that this is really an improvement on the present mode of tanning, but there is not much reason to expect such a result; for alleged improvements have been going on, intended to displace the old modes, by which we really got good leather, until it is difficult to get leather with any wear in it at all.

—Miss Glyn, a powerful and justly celebrated English actress of tragedy, has been making a dramatic sensation in London by her reading of Shakspeare's "Othello." In two particulars she is said to have taken a new view of the Moor's character. Thus, as interpreted by Miss Glyn, *Othello* did not evince rage, when asking *Desdemona* for "the handkerchief," but spoke in an imploring tone as if he felt that his wife might yet disprove *Iago's* accusations by producing that unlucky "napkin." Again, she infused into *Othello's* manner an occasional instinctive shudder, and a recoil from *Iago*—the prompting of a latent intuition. All this is very delicate and significant, and shows the perception that is an attribute of genius.

—It is a curious fact that out of eighty-five members of the Lower House of the Illinois Legislature, but eight are natives of that State. Of the other seventy-seven, fifteen were born in New York, thirteen in Kentucky, twelve in Ohio, ten in Pennsylvania, eight in Illinois, two each in Connecticut, New Jersey, Tennessee, Maine, Massachusetts, and South Carolina. One each in New Hampshire, Rhode Island, Indiana, Virginia, North Carolina and Vermont. Of those who were natives of a foreign country, two were born in England, two in Ireland, two in Germany, one in Scotland and one in Canada.

—The suicide of two young lovers at Sancti-Spiritus, in Cuba, has caused a great sensation there. A young man, says a correspondent, rendered desperate at being refused the hand of his adored one on account of his poverty, proposed to her the fatal alternative from which Hamlet shrunk back appalled. She consented, and leaning her head on the shoulder of her lover, received from him that death which was welcome in his company; a second shot from his revolver, and the pair were united in death. COE'S DYSPEPSIA CURE is prepared by the originator of the justly celebrated Coe's Cough Balsam. Mr Coe has never prepared a medicinal article for public and general use but what has stood the strongest tests, and has always borne the palm of victory over every disease it has been certified to cure. Will you who are suffering from dyspepsia, indigestion, nausea, sick headache, cholera morbus, dysentery, and general debility of the whole system, try but a single bottle? We will never urge you again if we fail in this case. Our own knowledge of its merits the united testimony of all who have ever tried it, the encomiums of hundreds of our own neighbors, your duty to yourself, and the beneficial result, as certain as sunshine, all urgently, persistently urge you to try just one bottle. If what we say is not correct—if our statements concerning its wonderful virtues are not found to be true—if you do not say that the operation of the medicine is instantaneous and perfectly wonderful—we will renounce our profession as caterers to the public health, and retire from the field, admitting that we are incompetent to compound a medicinal preparation which would be entitled to your confidence.

READ THE CERTIFICATE OF Rev. R. T. FLUALIN.

To DR. HOSTETTER:

Dear Sir:—This is to certify that I was taken with the dyspepsia a year ago last March, and, for a period of eight months, was one of the most miserable creatures you ever beheld, not being able either to eat, drink, or sleep, and was compelled to walk the floor incessantly. I was nearly deprived of my reason, and hope had entirely left me, all the efforts made for my recovery having proved fruitless.

By the first of November, 1865, I had become so weak and feeble that I could scarcely stand alone, and, to all appearance, would soon die. At this time (having read your advertisement,) my wife prevailed upon me to try your Bitters. A bottle was procured, and, strange to say, I soon commenced recovering. I have taken four bottles, and am enjoying as good health now as could be expected for one of my age (about sixty years.) I have no doubt that it was your Bitters alone, under Divine Providence, that effected this wonderful cure. R. T. FLUALIN.

THE HEALTHINESS OF THE WHITE PINE.

One of the most valuable compounds that has ever been brought before the American public is that of the white pine, called POLAND'S WHITE PINE COMPOUND. It is compounded from the inside bark of the pine tree, which grows abundantly throughout all the New England States, and has long been known and valued for its *anti-scorbutic* properties, not only by the inhabitants of that region of country now resident, but likewise to the wild Indians who formerly roamed the wilderness of the New England pine region, and from whom its great medical virtues seem to have been learned. POLAND'S WHITE PINE COMPOUND is, then, nothing more or less, as its name imports, than a complete, pleasant and effectual remedy made from the sweet inside bark of that valuable forest tree, combined with a few other well known diuretics. Its effects upon the kidneys and other secerning organs is truly surprising, but perfectly logical and scientific at the same time. It will be found exceedingly valuable in all dormant and diseased states of the mucous tissues, and we would especially recommend it where Buchu and such like remedies have failed, as being more active and efficacious for diabetes, bleeding from the kidneys, blind piles, enuresis, gravel, and nearly every disease of the mucous lining of the bladder and kidneys.

Formerly Editor of the "N. Y. JOURNAL OF DISEASES OF THE CHEST," after an absence of some years in Europe, has resumed practice in the United States.

Dr. Hunter takes this means of informing his old friends, and such as desire his services in Pennsylvania, that he will make a professional visit to Pittsburgh, arriving at the Monongahela House on Wednesday, February 27, and remaining until further notice.

As the object of his visit is to afford a personal interview to those wishing to consult him, it is desirable they should do so early, and so secure his personal attendance for as long a time as may be.

It seems hardly necessary to call attention to the remarkable success which has attended Dr. Hunter's peculiar method of treatment where the Respiratory Organs are affected. He deems it just, however to recall to mind the fact that in the City of New York the mortality from consumption and its cognates diminished over thirty per cent in three years after the first introduced his system of direct application to the diseased parts by inhalation of remedies and other combined means. fe26:u28

LARGE SALE OF KANSAS LANDS,

ON TUESDAY, THE 2d DAY OF APRIL, 1867, will be offered

AT PUBLIC SALE.

At the Eldridge House,
IN THE CITY OF
Lawrence, Kansas,
ABOUT 155,000 ACRES OF LAND,

Situate in the Counties of LEAVENWORTH, WYANDOTTE, JEFFERSON and DOUGLASS, and known as the

"Delaware Reserve."

These lands are directly on the main line of the UNION PACIFIC RAILWAY, EASTERN DIVISION.

The Branch of the same ROAD FROM LEAVENWORTH TO LAWRENCE PASSES THROUGH THEM, and the railroad from St. Louis to Leavenworth runs along their eastern border.

IN FERTILITY, LOCATION AND ABUNDANCE OF TIMBER AND WATER, these lands are the FINEST IN THE STATE.

By the treaty with the Delawares in 1860 the Indian title to the "Reserve" was extinguished, and since that date many farms have been improved, and churches, school houses, grist and saw mills erected, and many other improvements made thereon.

The climate of Kansas is remarkably healthy, and to farmers and settlers these lands offer

Greater Inducements than any Others in the West.

Also, at the same place, immediately after the disposition of the above lands, will be sold about

28,000 ACRES OF LAND,

Situate in the Southeastern part of the "SAC AND FOX RESERVE," in the county of Franklin, Kansas.

Also, a large number of TOWN LOTS AND BLOCKS in the towns of NORTH LAWRENCE, TONGANOXIE and PERRY.

The sale will commence on April 2d, 1867, and will continue from day to day until all the lands above named have been disposed of. The lands will be offered in tracts to suit purchasers.

TERMS OF SALE—One-third cash and balance in two equal annual payments, with 6 per cent. interest thereon from date of purchase.

NEW ADVERTISEMENTS.

AMERICAN WALTHAM WATCHES.

I.—We claim, and are prepared to prove, that the American Watches, manufactured at Waltham, Massachusetts, are not only equal, but far superior to the common watches of England, Switzerland and France.

II.—While we admit that it would be difficult to excel the masterpieces of the eminent European manufacturers, and while we do not claim to have made any decisive improvements over them, we do assert and challenge a successful denial, that our superior class of watches are fully equal, *in every respect*, to the most expensive specimens of foreign chronometrical art.

III.—We claim that our watches are cheaper, more accurate, less complex, more durable, better adapted for American use, and more easily kept in order and repaired than any other watches in the market.

IV.—The reasons why our watches possess these advantages over their European rivals are chiefly:

First, Because the principle of the division of labor is carried out in our workshops to its extremest limits, not in human industry only, but in machinery as well. Every watch passes through hundreds of hands and hundreds of machines.

Second, Because we promptly adopt every new invention to perfect our machinery, and every proffered improvement in the structure of watches.

Third, Because in each of the very numerous, minute, and often microscopic parts of which a watch is made up, we attain, by mechanical power, nearly *absolute* mathematical precision and uniformity, which it is utterly impossible to achieve by manual labor. Wheels, pinions, escapements, balances, springs and screws—exact counterparts in weight, circumference and dimensions—are turned out by millions by the unerring, because unswerving, iron hands of machinery. Hence, every watch of any one style is a true copy of its model.

V.—These results enable us to defy foreign rivalry, because no similar uniformity and precision is attainable by hand, and because in Waltham alone is machinery exclusively employed in the manufacture of this intricate and delicate mechanism.

VI.—Now, as will be seen at once, this similarity in structure reduces the cost of production; it secures uniformity in results; it perpetuates and *infallibly* diffuses any excellence that may be once achieved; and makes it easy to repair any injury sustained, or replace any part that may be lost or destroyed.

VII.—In addition to these mechanical advantages, our Watches are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches. They are composed of from 125 to 300 pieces. In an old English watch there are more than 700 parts.

VIII.—We began our experiment in 1853, in the face of a formidable prejudice against American watches. Our system was new and untried. We have steadily increased our facilities, until now we employ over 700 artisans, and sell 70,000 watches a year. Nearly a quarter of a million of our watches are in use to-day in every State of the Union, as well as in the Mexican and British Provinces and Colonies. Their universal popularity is the best proof of their merit that we can produce. They have won their way in spite of every opposition and of immemorial prejudices. Hundreds of dealers all over the country have expressed their preference for our products after a long and practical experience with foreign watches.

Any of the grades of Waltham watches may be purchased of watch dealers generally throughout the country.

THE INSANE.

The Annual Report of the Western Pennsylvania Hospital—Dixmont—Interesting Information and Statistics as to the Insane.

We have received the annual report of the managers of the Western Pennsylvania Hospital, for 1866, a neatly printed pamphlet of fifty pages, from the press of W. S. Haven. It contains an interesting exhibit of the workings of this institution during the year 1866, particularly of the Insane Department at Dixmont.

FINANCIAL CONDITION.

The expenses to the Hospital during the year amounted to $121,427 56; of this sum $48,928 07 was for hospital expenses, and $54,352 74 for a new hospital and improvements at Dixmont. Of this sum $73,879 75 was derived from the State appropriation; $32,959 88 from pay patients; $5,115 from individual benefactions; and $10,000 from the executors of Charles Brewer, Esq. The amount remaining in the treasury of the hospital, January 1, amounted to $25,451 75. It is recommended that the rates for public patients be advanced (by authority of the Legislature) to $3.00 and $3.50 per week, as in the Hospital at Harrisburg.

SUPERINTENDENT'S REPORT.

Dr. Joseph A. Reed, Superintendent of the Insane Department, in his report, presents various suggestions with a view to the further improvement of the usefulness of the institution. During the year the institution has been crowded to excess, and it has been with great difficulty that patients who arrived could be furnished with comfortable quarters; to this may be attributed the fact that a larger number of patients have died than in any previous year. Another year will bring partial relief by the completion of the western extension of the hospital. Dr. Reed urgently recommends that separate provision be made for the criminal insane. Among the patients are persons of good family, members of the learned professions, artists, merchants, artizans, who feel it an extreme hardship to be compelled to *associate with criminals*, whose insanity has only served to darken and exaggerate the most revolting features of their characters. The moral effect on the minds of those patients who are capable of reflection, and have never been convicted of crime, is extremely bad. They do not hesitate to ask "why convicts are brought from prison to associate with them?" The managers, in their report to the Legislature, recommend a State Hospital for incurables, in which, under separate treatment, might be kept the criminal insane.

THE INSANE IN HOSPITAL—THEIR HEALTH, ETC.

The statistical tables accompanying the report are of great interest. They tell the story of over one thousand insane persons in brief.

From reliable data, it has been ascertained that there are in Western Pennsylvania at this time, over one thousand persons suffering in the various stages of insanity, from the mildest form of mania to hopeless imbecility. Not over three hundred of this number are under hospital care. The others are either at their homes, a burden to their friends, and an annoyance to the community, or are immured in the cells of jails and poor houses. Statistics demonstrate that the distance from and nearness to an Insane Hospital have a great influence on its use by the people. They avail themselves of its usefulness in proportion to their nearness to it. No liberality of admission or excellence of management can entirely overcome the objections of friends to sending their insane from home. This is shown by the admissions to the Western Pennsylvania Hospital (Dixmont) from 1856 to 1866, inclusive. The admissions amounted to 1,055—of this number 560 were from Allegheny county; 74 from Beaver, 45 from Crawford, 46 from Fayette, 78 from Washington, 35 from Indiana, 41 from Erie, 23 from Westmoreland, etc.

From April 1, 1856, to January 1, 1867, 1,055 patients have been admitted to Dixmont; of whom 450 were committed by the courts and county authorities; 585 by friends; 18 from other States, and two from prisons by order of the Governor of the State. Of the total number sent to the Hospital 542 had been insane before admission not exceeding six months, and 513 for periods ranging from six months to thirty-five years; 386 have been discharged restored, 233 improved, 93 not improved, 1 not insane, and 126 have died. The total number of insane persons under treatment at Dixmont during the past ten years has been 1,055. On the 1st of January, 1866, there were 204 patients in the Hospital; 135 patients have been admitted since, making the total of 339 under treatment during the year; of these 133 have been discharged or died, leaving 206 in the Hospital on the 1st of January. Of those discharged 50 were restored, 26 improved, and 18 unimproved; and 39 died. Of the deaths eleven had been in Hospital less than one month, and twenty-seven less than one year. Of one of the cases terminating fatally, from persistent refusal to take food, Dr. Reed says:

"Previous to the admission medicine had been administered in his food, until he conceived the idea that a determined effort was being made by his friends and medical adviser to poison him, and that his only security was in rejecting all food, no matter by whom presented."

A much larger number of patients have occupied the Hospital during 1866 than in any other year since its organization, the total number having been 339. Of those admitted fully one-half are chronic cases, for whom there is little hope of cure. From various causes this class of insane rapidly increases, and unless more ample provision is made at an early day for the prompt and judicious treatment of insanity in its incipient stages, "the Chronic and Incurable" will occupy the various Hospitals of the State to an extent that will exclude all more curable patients.

STATISTICS AS TO THE INSANE.

We condense the following facts from the statistical tables appended to Dr. Reed's report:

Age—Of the 1,055 admissions, 314 were of persons between 20 and 30, 289 between 30 and 40, and 174 between 40 and 50. There were three admissions of persons between 80 and 90.

Sex—There have been 606 males and 449 females admitted; 507 were single, 437 married, 75 widows and 36 widowers. The fact of so few widowers becoming insane may be regarded by some remorseless bachelors as significant.

Causes of Insanity.—The table showing the supposed causes of insanity is of the greatest interest. Intemperance is credited with 106 cases, or one-tenth of the whole number; religious excitement, 25; disappointment, 49; domestic difficulties, 62; pecuniary difficulties, 40; loss of friends, 28; jealousy, 16—4 males and 12 females; war excitement, 16; tobacco, 8; fear, 16; Andersonville prison, 1.

Occupation.—Of the admissions of males there were 182 farmers, 110 laborers, 19 blacksmiths, 15 carpenters, 10 teachers, 15 merchants, 20 miners, 11 shoemakers, 19 soldiers, 5 printers, 3 ministers, etc. Of the females 53 had been domestics, 32 seamstresses, 45 daughters and 57 wives of farmers, 32 wives of laborers. It would seem that the largest proportion of insane persons come from occupations not supposed to embrace the largest amount of intelligence.

AMUSEMENTS FOR THE INSANE.

Amusements at the Hospital have been devised to relieve the weariness of the long evenings of winter, and to establish, if possible, new trains of thought in the minds of those diseased. The magic lantern, billiard and bagatelle tables, music, dancing, parties, tableaux, and concerts, have been brought into requisition, and not without good results. On several occasions the tableaux were arranged with much taste, and were presented in a manner that would have given satisfaction to more critical spectators than those of our household.

The Noon Day Prayer Meetings.

A few weeks ago a regular noon-day prayer meeting, especially for business men of all denominations, was organized in the lecture-room of the First Methodist Church, on Fifth street, next door to the office of the GAZETTE. The meetings are held daily, at from twelve to half-past twelve. At first these meetings were small; but they have been steadily increasing in numbers and interest, until nearly every seat in the room is occupied, and the services are marked with unusual fervor. Although the meetings are composed chiefly of business men, and most of them young men, yet considerable numbers of ladies and strangers attend.

There is a profound religious feeling pervading these cities, especially among young men. In some of the churches meetings are held and largely attended every evening.

A Desperate Assault.

Before Alderman McMasters, yesterday, came Joseph McMurray, a colored man, and made information against David Richards, an ex-member of the Independent police, charging him with assault and battery with intent to kill. The alleged assault occurred on the 14th of July last, when the deponent was engaged in hauling pig metal for Everson & Preston. On the day mentioned he was driving a wagon load of pig metal into Crawford's metal yard on Penn street, when he was met by defendant, who forbade him entering there. Deponent insisted that he had a right there, and should go in. Thereupon, as is stated, the accused seized an axe and struck deponent a violent blow with it on the back of the head, producing injuries so severe that he has been confined to the house ever since until within a day or two. A warrant was issued.

Where he Got Drunk.

Yesterday, we mentioned a small boy, Patrick Sally, who was brought to the lock-up, Sunday, in a state of beastly intoxication. It seems that he was picked up by officer Fritzle, in Lawrenceville, and said he got his liquor at a doggery in the Ninth ward. The officer went with him to see the place. He was taken to a yard in the rear of an old house, formerly known as the Green Bush Tavern, located near the glass house. From thence he was conducted into a dark, filthy cellar, where a crowd of men were congregated. In one corner a small counter could be seen, behind which was a female dealing out the liquid poison. Officer Fritzle hunted up the ward constable, discovered to him the den, and gave the boy into his charge. Yesterday morning the boy's father appeared, paid his fine and took him away.

Committed for Trial.—On Saturday, Alderman Herron, of the Ninth ward, committed to jail Thos. Montgomery to await his trial in Court on a charge of assault and battery, preferred against him by a man named Hart. The parties both reside in the Ninth ward.

Hearing Had.

Peter Sutter, the man charged by Albert Holthouse with assaulting him on the Suspension Bridge, on Thursday night last, had a hearing before Mayor McCarthy, yesterday morning, and was held for court in the sum of $500. William Snyder was charged with being implicated with Sutter, but was discharged. An information against Holthouse, the prosecutor in this case, has been made before Mayor Morrison by Sutter, for assault and battery. At the conclusion of the hearing yesterday morning, Chief Long, of Allegheny, arrested Holthouse and took him before Mayor Morrison. Sutter alleges that he was passing over the St. Clair street bridge, at half past six o'clock on Thursday evening, when he overtook Holthouse, who was riding in a wagon, with a small dog in his lap. When near the other end of the bridge, Holtshouse charged Sutter with striking the dog, and threatened to whip him if he repeated the offence. Sutter denied the charge, but Holtshouse persisted that he had struck the dog. A short distance above the railroad crossing, on Federal street, Holtshouse again accosted Sutter and demanded to know who he was. The latter then stopped Holtshouse's horse, when the accused committed the assault complained of. Holthouse also was held to bail for Court.

Brought Over.—On Sunday night officer Frank Campbell, of the Allegheny night police, was attracted by what seemed to be a large sized female row in progress on Federal street, Allegheny. He proceeded to the spot and found three women, who were not quarreling among themselves, but were venting their wrath in concert against some fellows who, as they alleged, had offered them indignities and then fled. The women were Belle Kelly, Caroline Black and Agnes Warne. From the nature of their demonstrations the officers judged that they would be better inside the lockup than outside of it, and accordingly took them thither. Yesterday morning they were brought to jail for the period of ten days each.

Coming to Grant Hill.—On Saturday, in the United States District Court, upon application of District Attorney Carnahan, Hon. Wilson McCandless granted an order for the removal of a man named Keister, now confined in the jail in Erie on a charge of passing counterfeit money, to the jail in this city. Keister is alleged to have been engaged in shoving one hundred dollar counterfeit bills in Butler county, and the Government detectives were in search of him. He was arrested in Erie county.

Ears Pulled.—Mrs. Katrina Linder yesterday came before Alderman Albeitz, and made information charging Mrs. Schneiderlocher, (we believe that is all the name,) with assault and battery. The parties live in the Ninth ward, and the prosecutrix alleges that her neighbor caught deponent's little girl and pulled her ears severely. The accused was arrested and held for a hearing.

Recovering.—James Dougherty, who was injured so severely last week by falling under a dirt train on the Connellsville Railroad, is recovering very rapidly, we are glad to learn, from the injuries received.

COURT REPORTS.

Railroad Cases in the District Court—Actions for Damages—Verdict for $3,700—Judgment of Non-Suit Allowed.

In the District Court, during last week and yesterday, Judge Hampton was sitting on the trial of the case of Rowan and wife vs. the Cleveland and Pittsburgh Railroad Company. The case was tried with more than ordinary care and ability, and the Court in its charge took occasion to refer particularly to the latest decisions of the Supreme Court of the State on the questions involved. The counsel engaged were Messrs. Thomas M. Marshall and A. M. Watson for the plaintiffs, and S. Schoyer, Jr., for defendants.

It was an action of trespass on the case brought by the plaintiffs as husband and wife, in right of the wife, to recover damages for the death of her son by a former husband, which, it is alleged, was caused by the servants and employees of defendants. The facts elicited from the evidence were, that, in August, 1865, the deceased, a young man named Henry Hallock, was a passenger on the Accommodation Train of the Pittsburgh, Fort Wayne and Chicago Railroad Company, which was passing down their road, and stopped at Edgeworth station (about three o'clock in the afternoon), where he got off the cars; and, just as the train was leaving the station, he started to go across the other track to the station house, where his uncle lived, and where he was staying temporarily, when the Cleveland Express train, belonging to defendants, came up on the track he was crossing, and struck him, inflicting an injury from which he died in about three hours. A public township road crosses the track of the railroad at grade at the point, and the deceased was on this public crossing at the time of the collision.

The allegations brought up the usual question of negligence in its various aspects. First, was the death caused by the mutual negligence of both parties, *i. e.*, did the negligence of the deceased contribute in any degree to the injury? If so, the plaintiff could not recover. Second, if the deceased was not guilty of any negligence, which contributed to the death, was the collision caused by the negligence of the defendants? If so, they are responsible and the plaintiff entitled to recover; but if the defendant's were not guilty of negligence, they are not responsible and plaintiff not entitled to recover.

Judge Hampton first considered the rights and duties of the parties respectively as defined by the well settled rules of law. After describing particularly the locality where the accident occurred, he quoted from the opinion of the Supreme Court in the case of the North Pennsylvania Railroad Company vs. Heileman (13 Wr. 60); also, from the very last case on this subject, the Pittsburgh, Fort Wayne and Chicago Railroad Company vs. Evans, where the collision occurred at the intersection of one of the public streets of Allegheny city with that railroad.

Judge H. instructed the jury in accordance with the rule of the Supreme Court—that if deceased did not look out and listen for the train before he attempted to cross the track, this was culpable negligence on his part, and that if his failure to do so contributed to his death, then the verdict should be for the defendants; also that if the view of the track was obstructed by the departing train, or its noise prevented him from hearing the approaching train, and if by waiting two or three minutes he could have seen or heard that train, it was his duty to wait that short space of time, and not to do so was negligence in him. The jury were also instructed as to the duty of defendants. If the plaintiffs were entitled to recover it would be for the damage done in producing the death of the son, and this was to be estimated by the pecuniary value to the mother of his services during his minority, together with his funeral expenses. Deceased was eighteen years and five months old at the time of his death, and his mother, if entitled to recover at all, would be entitled to what the jury might believe that his earnings might have been until he would have reached his majority, a period of two years and seven months, after deducting expenses for boarding, clothing, washing, &c., during that time, and also for the expenses of the funeral and any medical attention given him during the two or three hours that he lived after the injury. The Court could see no evidence of any such "wantonness, violence, or gross negligence, evincive of moral turpitude," as would justify the giving of exemplary or vindictive damages—nothing beyond compensation under the rule referred to.

The jury, after an absence of less than an hour, returned a verdict in favor of plaintiff for the sum of three thousand two hundred dollars.

ANOTHER RAILROAD CASE.

R. A. King vs. Pittsburgh, Fort Wayne and Chicago Railway Company. Plaintiff sought to recover, for the services of his son, of which he was deprived, as alleged, through the negligence of defendants. In August, 1863, plaintiff's son, with other boys, got on board a cattle train while in motion, at the crossing on the east side of Federal street, Allegheny City, and rode upon it to the West Common, beyond the bridge over Ohio street, where he got off and awaited the approach of a train coming from the west, upon which to ride back. As the train came up he got upon a pile of dirt, between or near the tracks, and his foot slipped, causing one or more car wheels to pass over it. The injury was of such a nature as to require the amputation of the left leg six inches below the knee. Purviance & Son appeared for the plaintiff, and Lowrie & Son for defendants.

After the plaintiff had rested his case, defendants' counsel moved for judgment of non-suit, on the ground, first, that there was no evidence whatever of negligence on the part of the defendants which contributed to the injury of plaintiff's son; and second, the evidence showed the injury was caused by the negligence of plaintiff's son.

Per Curiam.—The motion for non-suit is allowed, with leave to plaintiff's counsel to set the same aside.

Henry Everts vs. Philip R. Mertz. This was an action to recover $1,788 21, which plaintiff claims to be due for monies deposited with defendant, who is a banker. The money deposited was gold, and the arrangement was alleged to be that plaintiff was to allow the premium as gold advanced or declined, defendant being allowed a commission. Upon a settlement of the account plaintiff claimed the amount stated, while defendant alleged that the amount due was but $16 65, which was tendered. The jury found a verdict in favor of plaintiff for the amount tendered.

—We make the annexed extract from the money article of the New York *Tribune*:

"*The natural tendency of prices is downward*, and those who are now overloaded with goods at high prices cannot, by any legislation, be saved from the effects of their mistakes. Banking upon a reserve paying no interest will not be as profitable as at present when the banks get six per cent upon $45,000,000 of compounds held by them as reserve, and the banks will contract steadily and get more money on less risks. Under the new scheme a short, very short inflation of prices, may be shown in goods, stocks and gold, but the advance in prices would soon absorb the new facilities given by the legal tenders, and at an early day prices would again break and go lower than would have been the case if the new legal tenders had not been issued. Financial relief cannot be had in the way attempted by the majority of the House of Representatives, but must come from an exactly opposite course. Drunkards are not made temperate men by trying how much rum they can consume. Nor can a people financially debauched by using irredeemable paper as money be made solvent by increasing the value of this delusive currency. A steady reduction of the currency by the most rapid possible funding of the sort debt is the action called for alike by public honor and private credit. This action is certain under existing laws, and it is to be hoped that the Senate will, with its usual good sense, put this unwise bill of the House of Representatives out of existence at once, leaving speculators and insolvents to get to land as they best can."

—We clip the following Wall street gossip from the New York *Independent*:

Mr. James Boyd, the broker who bought 45,000 shares of Erie for the late pool in that stock, has adjusted matters with his creditors, it is stated, and will immediately resume business, with no lack of earnest friends to support him. His course has been honorable and exemplary to the last degree, while his failure was an inflicted cruelty which will not soon be forgotten. Enough said.

The Northwestern stocks, common and preferred, at one time seemed to be struggling upward, but a few blows from the paws of the old bears brought them flat again. The old pool party are shy and cat-like in all their present movements. They desire to unload at the first convenient opportunity, but the difficulty is to find buyers. The public have no confidence in any steady upward movement in these stocks, and hence they prefer for the present to be "speculators." The road is said to be doing well, partially in raising and spending money. With a stock and bonded debt of about $45,000,000, it is not easy to see how sufficient dividends can be earned to cover the interest on this immense sum. Some future generation, however, may be gratified.

Erie Railroad stock has had a hard time of it. It seems to have lost all its friends. "Down with it" has been the cry in all directions. It has had a severe kick from the bears almost every day. One not very bold operator in the Long Room sold a thousand shares at 60, "buyer any time this year." This sale was made the day the price was a trifle under those figures. The buyer was confident that he had made a good bargain and demanded "10 up," which terms were promptly accepted. The seller, as it has proved was the wiser of the two. The great falling off in the receipts of this corporation has had a damaging effect; so much so that some of the Directors, it is known, have joined the bears in selling it down.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, January 25, 1867.

The produce markets present no new features worthy of notice. The demand for most, if not all, of the leading commodities is restricted entirely to filling small orders, both consumers and retailers buying very sparingly, while so far as values are concerned, there are no changes worthy of special notice.

GRAIN—Wheat is dull and nominally unchanged. We continue to quote at $2.55 to $2.60 for No. 1 Spring, and $2.85 to $2.90 for Red Winter. Barley is steady and prime, No. 1 Spring may be quoted at 95 to $1. Sale of 1100 bush Rye, to arrive, on private terms; 1 car do, to arrive at $1.27½. Corn is dull; may be quoted at 67 to 70, on track, and 73 to 75, in store. Oats dull; sale of 200 bushels in store, at 50.

FLOUR—Is dull and neglected but unchanged—regular sales at $11,50 to $12 for good to choice Spring Wheat brands; $13,50 to $14 for Winter Wheat; and $16 to $17 for fancy St. Louis brands. Rye Flour selling at $7,50 and Buckwheat at $3,75 to $4.

PROVISIONS—Bacon is selling in a jobbing way at 10 to 10½ for Shoulders, and 15 to 15½ for Sugar Cured Hams. Lard is quoted at 12 to 12½, for steam, and 12¾ to 13 for kettle rendered. Mess Pork—$21 to $21,50.

SEEDS—Flaxseed is in demand and sells readily at $2,70 to $2,75. Sale of 22 bags Cloverseed at $8,50. Timothy Seed is dull; occasional small sales at $3,25 to $3,50.

BUTTER—Continues dull with a supply considerably in excess of the demand, and liberal receipts. Prime Roll is selling at 30 and choice at 32 to 33.

EGGS—In fair demand and we can report regular sales of fresh packed at 25.

HAY—Continues very dull but unchanged—sale of 1 car good Timothy at $23—strictly prime may be quoted at $25.

APPLES—We can report sales of 200 bbls at $2,50 to $4 per bbl, and these may be regarded as the extremes of the market.

LARD OIL—Is unchanged. We continue to quote manufacturers rates as follows: No. 2, 88 to 90, and No. 1 $1,08 to $1,10.

DRIED FRUIT—Sale of 12 bbls Apples at 9. Peaches may be quoted at 16 to 17 for quarters and 19 to 20 for halves. Sale of 8 bbls "Mixed" at 18.

POTATOES—In good supply and exceedingly dull: sales in store, at $2,50 to $2,75 per bbl, as to quality.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, February 25, 1867.

CRUDE—There was rather more activity displayed in the market to-day, the sales in the aggregate being unusually large, but prices, instead of improving are, if anything, getting worse and worse. We can report sales of 700 bbls, to arrive, at 7¼; 1000 to arrive, at 7½; 2000 for immediate delivery at 7; 162, on spot, at 7¼; and 175, on spot, at 12¾, packages included. From the above, it will be seen that quotations may be fairly given at 7 to 7½, in bulk and barrels returned, and 12 to 12¾, packages included, and for the time being, these may be regarded as the extremes of the market.

REFINED—The transactions in bonded oil were unusually large in the aggregate to-day, but notwithstanding there is a little more activity manifested, prices are no better—indeed, the tendency is still downward. We can report sales of 500 bbls, for immediate delivery in Philadelphia at 27½; 500 bbls, standard white, for March, at 28; 1000 bbls standard white, for June, 30¼; 1500 standard white, 500 for August, 500 for September, and 500 for October, at an average of 33 cts. Free oil is dull and unchanged.

We take the following article, in reference to the present condition and future prospects of the petroleum trade, from the Boston *Bulletin*, and the views therein contained are endorsed by the great majority of the shrewdest and most intelligent dealers in the country:

"It is the general opinion among members of the oil trade, that the prices of petroleum must continue at or about their present low range, during the current year. The stock of oil on hand at the points of production, at shipping ports and in foreign markets, must forbid an advance in rates, under ordinary circumstances; and the chances seem to be that influences which affect this article will tend to depress rather than to raise it.

"The production of petroleum, during the past year, steadily increased, notwithstanding the growing unpopularity and frequent disastrous results of oil ventures; the tankage capacity of the country has been vastly enlarged, and the exports to foreign markets must be reckoned by millions; but the serious question now among holders is, where shall the stock be stored? It is well understood that the demand, just now, for petroleum, by no means keeps pace with the supply. This prospect would seem to offer little encouragement to speculations.

"The belief that prices of petroleum will remain at about the same figures during at least the greater part of 1867, is based upon several grounds, some of which are included in the statements made above as to the immense stocks now on hand and unsaleable. The threatened contraction of the currency has also been taken into consideration by the large class of oil-men who hold these views. Upon a general view of the present state of the market, and a reference to the experiences of the past year, they conclude that few reasons can be adduced to justify the expectation that oil will rule materially higher for some months to come than at present."

ARRIVALS—The following arrivals of oil were reported to-day:

RIVER NEWS.

The river is again rising at this point with eleven feet in the channel by the Allegheny marks last evening. The rise, we believe is mainly in the Allegheny, and from this it would seem that their have been additional rains at its head waters. The weather yesterday was cloudy and raw with indications of snow.

There has been no arrivals or departures since our last report aside from the regular packets.

The Argosy No. 2 got in last evening with an excellent trip; and will return to Cincinnati again on Wednesday at noon, her regular day for leaving here. Capt. Vandergrift and clerk W. H. Scott, are progressive steamboatmen and know how to conduct matters in a packet trade.

The Belle and Ida Rees No. 2 arrived from Oil City, and the first named boat left again last evening with a fair trip. The Peerless is due to-day.

THE IDA STOCKDALE, is now at the landing receiving freight for St. Louis and the upper Missouri, and it is thought that she will be ready to leave on Wednesday evening. The Ida was built under the superintendance of Capt J. T. Stockdale, expressly for the Upper Missouri River Trade, and is, in all respects, a perfect success. The hull was built by Messrs Chrissinger & Son, of McKeesport, and is of the following dimensions: length of keel, 170 feet, 31 feet beam; and 4½ feet depth of hold. It is built in water tight compartments, and, all in all is considered a splendid job, and there is nothing about it of which the builders need be ashamed. She has two boilers 24 feet long by 42 inches in diameter; Engines by James Rees; cylinders, 14 inches in diameter with 4½ feet stroke. The cabin, which is neat and tastefully arranged, was built by Slack & Sholes, and the painting was done by Wm. Nelson, who usually does good work. Blocks and tackle by Davage & Roberts; outfit by Evans Gilmore & Dallas; Upholstery by Holtzman & Wiederhold.

The Ida Stockdale will be commanded by Capt. Grant Marsh, of St. Louis, who has had much experience in the Upper Missouri trade, and commanded the Luella on that stream last season. Capt. Thomas S. Calhoun, a well known river man, has charge of the office. J. A. Moore and J. M. Marsh, are the engineers and Wm. Benmelt is mate. The Ida is without doubt one of the most substantial and best arranged boat yet built for the mountain trade, and while she will carry a very respectable cargo, she will not draw much more water than a good sized yawl.

The Armenia, Capt. A. C. McCallum is filling up steadily for New Orleans, and will leave on Wednesday without fail, and passengers and shippers should bear this in mind. The Great Republic Capt. Donaldson is rapidly approaching completion and and will be ready to leave for New Orleans, as advertised.

The Spray Capt. Smith is now in turn for Cincinnati and Louisville, and will leave to-morrow evening. The Spray is a neat and staunch craft and is in charge of careful and experienced officers.

The America, Capt. T. H. Golding, with Mr. J. W. Clarke in the office, is up for Nashville and all intermediate points.

The Maggie Hays left Cincinnati for Pittsburgh on Saturday, and the Glendale and Kate Putnam are en route from St. Louis to to this city, and the Wauanita, en route from Memphis to Pittsburgh, was at Louisville on Friday.

The Evansville *Journal*, of Wednesday, has the following: "Mr. Robert Barnes, who has lived here ever since the Ohio river [illegible] informs us that the River is yet two feet six inches below high water mark of 1832, and seventeen inches below the mark of 1847. We receive so many conflicting statements in regard to these [illegible], that we give this as a matter of [illegible], and though we are inclined to believe that Mr. Barnes knows as much about it as any one else."

We clip the following from the St. Louis *Republican*: [illegible]

RECENT STEAMBOAT TRANSFERS.—David H. Hill and Edwin Howes sell three-fourths of the Parker H. French [illegible] at the rate of $10,000 for the whole boat. [illegible] W. Cable to James W.
